K. In accordance with 1902(a)(85) and Section 1004 of the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment (SUPPORT) for Patients and Communities Act the Iowa Medicaid Program has the following Drug Utilization Review (DUR) requirements in place:

1. Opioid Related Claims Review Limitations:

	Prospective Drug Review (Safety Edits)	Retrospective Drug Use Review (Claims Review Automated Process)
Days' Supply/Early Fill Alerts	The claim is denied if the days' supply exceeds the allowable or if not enough time has elapsed for the member to use the specified percent of the supply issued under a previously paid claim for that medication.	The program generates reports that are reviewed in an ongoing manner, referring to the DUR Commission for additional review as needed. Interventions to the prescriber and/or pharmacy are initiated as directed by the Commission.
Duplicate Fill/Therapy Alerts	Safety edits at point-of-sale are in place to notify the pharmacy, who contacts the prescriber as necessary, of the drugs prescribed concurrently to avoid and mitigate associated risks prior to dispensing. The action would be up to the pharmacist and prescriber.	The program generates reports that are reviewed in an ongoing manner, referring to the DUR Commission for additional review as needed. Interventions to the prescriber and/or pharmacy are initiated as directed by the Commission.
Quantity (Dosage) Limits	The claim is denied when the supply exceeds the established days' supply quantity limit based on the appropriate dosage for that medication. Prior Authorization is required.	The program generates reports that are reviewed in an ongoing manner, referring to the DUR Commission for additional review as needed. Interventions to the prescriber and/or pharmacy are initiated as directed by the Commission.
MME	The claim is denied when the cumulative morphine milligram equivalents (MME) per day across all opioids exceeds the defined MME amount. Prior Authorization is required.	The program generates reports that are reviewed in an ongoing manner, referring to the DUR Commission for additional review as needed. Interventions to the prescriber and/or pharmacy are initiated as directed by the Commission.
Concurrent Utilization Alerts: opioids + benzodiazepines or opioids + antipsychotics	Reviews are in place to notify the pharmacy, who contacts the prescriber as necessary, of the drugs prescribed concurrently to avoid and mitigate associated risks prior to dispensing. The action would be up to the pharmacist and prescriber.	The program generates reports that are reviewed in an ongoing manner, referring to the DUR Commission for additional review as needed. 2. Program to Monitor Antipsychotic Medications by Children: Prospective drug utilization review edits are applied to antipsychotic claims for all members less than 18 years of age generally and children in foster care specifically. The claim will deny if the age of the member falls below the set age edit for the medication or if the member is on greater than one antipsychotic medication. Prior authorization is required. The program generates and reviews a periodic report, referring to the DUR Commission for additional review as needed. Interventions to the prescriber and/or pharmacy are initiated as directed by the Commission.

3. Fraud and Abuse Identification for Controlled Substances: The program produces periodic reports on members, prescribers and pharmacies to identify fraud and abuse issues (such as members using multiple pharmacies/prescribers, high volumes of controlled substances from specific prescribers/pharmacies, or other identified trends/indicators), referring to the DUR Commission for additional review as needed. Interventions to the prescriber and/or pharmacy are initiated as directed by the Commission. Referrals are submitted to the state program integrity unit for further investigation and action.

4.43 EMPLOYEE EDUCATION ABOUT FALSE CLAIMS RECOVERIES.

(a) The Medicaid agency meets the requirements regarding establishment of policies and procedures for the education of employees of entities covered by section 1902(a)(68) of the Social Security Act (the Act) regarding false claims recoveries and methodologies for oversight of entities' compliance with these requirements.

## (1) Definitions.

(A) An "entity" includes a governmental agency, organization, unit, corporation, partnership, or other business arrangement (including any Medicaid managed care organization, irrespective of the form of business structure or arrangement by which it exists), whether for-profit or not-for-profit, which receives or makes payments, under a State Plan approved under title XIX or under any waiver of such plan, totaling at least \$5,000,000 annually.

If an entity furnishes items or services at more than a single location or under more than one contractual or other payment arrangement, the provisions of section 1902(a)(68) apply if the aggregate payments to that entity meet the \$5,000,000 annual threshold. This applies whether the entity submits claims for payments using one or more provider identification or tax identification numbers.

A governmental component providing Medicaid health care items or services for which Medicaid payments are made would qualify as an "entity" (e.g., a state mental health facility or school district providing school-based health services). A government agency which merely administers the Medicaid program, in whole or part (e.g., managing the claims processing system or determining beneficiary eligibility), is not, for these purposes, considered to be an entity.

An entity will have met the \$5,000,000 annual threshold as of January 1, 2007, if it received or made payments in that

amount in Federal fiscal year 2006. Future determinations regarding an entity's responsibility stemming from the requirements of section 1902(a)(68) will be made by January 1 of each subsequent year, based upon the amount of payments an entity either received or made under the State Plan during the preceding Federal fiscal year.

(B) An "employee" includes any officer or employee of the entity.

(C) A "contractor" or "agent" includes any contractor, subcontractor, agent, or other person which or who, on behalf of the entity, furnishes, or otherwise authorizes the furnishing of, Medicaid health care items or services, performs billing or coding functions, or is involved in the monitoring of health care provided by the entity.

(2) The entity must establish and disseminate written policies which must also be adopted by its contractors or agents. Written policies may be on paper or in electronic form, but must be readily available to all employees, contractors, or agents. The entity need not create an employee handbook if none already exists.

(3) An entity shall establish written policies for all employees (including management), and of any contractor or agent of the entity, that include detailed information about the False Claims Act and the other provisions named in section 1902(a)(68)(A). The entity shall include in those written policies detailed information about the entity's policies and procedures for detecting and preventing waste, fraud, and abuse. The entity shall also include in any employee handbook a specific discussion of the laws described in the written policies, the rights of employees to be protected as whistleblowers and a specific discussion of the entity's policies and procedures for detecting and preventing fraud, waste, and abuse.

(4) The requirements of this law should be incorporated into each State's provider enrollment agreements.

(5) The State will implement this State Plan amendment on January 1, 2007.
